Frequently Asked Questions

Q. What do you use to clean a chandelier?

A. We use a special solution created exclusively for cleaning crystal and glass chandeliers. The solution is sprayed directly onto the chandelier. We then allow the fixture to dry and blot off any remaining liquid. An extremely solid fixture may require a second application.

Q. Where are the services performed?

A. All services are performed on site at your home or business.

Q. How often should I have my chandelier cleaned?

- A.
- Every six months to once a year
 - After construction or renovation
 - When moving into a new home
 - Before a party or event
 - Before the holidays
 - Anytime you want your chandelier to sparkle

Q. What is the cost of your services?

A. The cost of services depends on the scope of work to be performed. Please contact us to arrange for a free estimate.

Q. Are rush services available?

A. Yes.

Q. Do you have references?

A. Yes. References are available upon request.
